Meeting Minute Process: Best Practice

In order to get the minutes out in a more timely fashion, we are proposing that we no longer officially “approve” the minutes, especially since our bylaws do not require us to do so. We propose the following process for future meeting minutes:

1. Secretary will draft the minutes typically within 5 business days after the meeting.
2. Secretary will send the minutes to the executive committee who will review them and edit as necessary within 3-5 business days.
3. Minutes will be sent to senators for distribution to constituents and will be posted to the website. The minutes will also be posted on Collab.
4. Senators will have the opportunity to send edits to the secretary and will be given the opportunity at the following Staff Senate meeting to provide edits.
5. Secretary will review the edits sent by staff senators and will incorporate any changes he/she deems necessary into the minutes AFTER the following meeting (unless there is a substantial/critical change, in which case the minutes will be updated immediately) and send the revised minutes to the Communication Committee to post on the website (as final).
Meeting Minute Highlights Document

Because it may take 10 business days after the Staff Senate meeting to distribute minutes to our constituents, the executive committee will produce, when necessary, a meeting summary/highlights document that will include a brief overview of the meeting, time-sensitive information, and any other critical piece of information that should be distributed immediately. The summary/highlight document will typically be distributed 1-3 business days after the meeting.
Revised Bylaws

Why update?

• Bylaws should reflect the current Senate practices and include organizational lessons learned during the transition year.

• Bylaws should include only practices that will be consistent from year-to-year. Procedures that will change (such as committee structure or voting practices) as we evolve and develop new best practices should be more responsive and will be included in best practice documents rather than the bylaws.

Executive Team

Why the change?

- Co-chair model shares responsibility.
- Committee chairs should participate in exec to plan future meetings and direct Senate work.
- Including committee chairs provides clear division of duties.
- Larger exec prevents over-burdening co-chairs & secretary.

- Standing Committees Best Practices Documents
Committees

Why the change?

• Current by-laws don’t reflect current committees.
• Want to be more responsive to changing nature of Staff Senate work.
• Assume that current five committees will continue into next year, but don’t want to lock anything down, which is why we simplified the bylaws.
• IMPORTANT: Duties assigned to officers during transition will now be delegated to standing committees. (This is already happening.)
