University of Virginia Retirement Plan

September 2016
GOALS

- Simplify retirement savings choices
- Lower average expenses
- Provide uniformity between the 401(a) and 403(b) programs

RESULTS

- We researched university best practices
- We conducted a thorough review of our retirement plans
- We are implementing three improvements
  1) Consistent structure across all UVA retirement plans
  2) Streamlined 3-tiered structure
  3) Simplified investment menu within each tier
The University of Virginia retirement plans include:
  • Optional Retirement Plan (ORP)
  • Medical Center Retirement Plan (MCRP)
  • 403(b) Plan
  • Cash Match Plans

$2.831 billion in plan assets as of December 31, 2015
  • $1.039 billion with Fidelity
  • $1.792 billion with TIAA

28,402 plan participants as of December 31, 2015
  • 16,378 with Fidelity
  • 12,024 with TIAA

380 fund options
  • 302 with Fidelity (106 funds in the ORP)
  • 78 with TIAA (30 in the ORP)
EXECUTIVE BRIEFING

FORMATION OF RAC

**Purpose** – to provide oversight of the Defined Contribution Retirement Plans for the employees of the University of Virginia.

- Committee was formed in June 2007 to establish procedures and review investment performance and fees associated with the ORP, MCRP and Cash Match plans.

- In April of 2008, the Finance Committee of the Board of Visitors approved new Investment Procedures, creating a menu of investment options for plan participants that includes a full range of funds, regardless of which vendor a participant elects.

- In June of 2016, the Finance Committee of the Board of Visitors approved expanded oversight to include the 403(b) plan.

- The Committee annually reports to the Finance Committee of the Board of Visitors.

- CAPTRUST serves as the advisor to the RAC with fiduciary responsibility on investment selection and retention.

**Current Committee Members**

- James Matteo, Associate Vice President and Treasurer
- Melanie Davis, Managing Director, UVIMCO
- Nicholas Mendyka, Chief Financial Officer, Hospital and Clinics
- Leora Friedberg, Associate Professor of Economics and Public Policy
- Alison Miller, Director, Total Rewards
- David King, Retirement and Financial Wellness Manager
COMPREHENSIVE ASSESSMENT

In 2014/2015, to determine if the current structure was to be continued or if changes were warranted, UVA and CAPTRUST started a thorough review of the plans including:

- Current vendors - affirmed the continued use of both Fidelity and TIAA as our vendors.
- Current fund menu design
- Investment and administrative fees
- Current communication and education offered
- Current trends in the public higher education sector
WHY SIMPLIFY?

Trends in public higher education warrant a new, simplified approach

1) The more complicated the set of retirement plan choices = the fewer people make a choice

2) When employees have the opportunity to save and invest in their retirement plans = they engage in more of this on their own as well

3) UVA’s retirement plans are an important attraction and retention vehicle so we must offer the best program we can to our employees
UNIVERSITY OF VIRGINIA RETIREMENT PLAN

Tier 1 – “Do it for me” (delivered diversification at low cost)
   Target Date Funds

Tier 2 – “Help me do it” (self-diversification at lower cost)
   Cost-conscious options
   Index investor

Tier 3 – Expanded Choice (broad diversification without consideration of cost)
   Ultimate choice investor (brokerage window)
   Select actively managed funds (have met policy guidelines)

ADVANTAGES

• University of Virginia branded website and communications materials

• Reduced administration fees, which increases returns

• Simplified and easier to understand fund menu from industry leaders in asset management for all investor types and across all plans

• Access to low cost share classes wherever available

• Increased education and communication opportunities for employees

• Self-directed brokerage window for greater investment flexibility

• More emphasis on targeted plan participant education

There will be no changes to the University of Virginia contribution strategy, eligibility, or vesting
CLOSING AND MAPPING OF EXISTING BALANCES IN LEGACY ASSETS

Beginning September 26, 2016:
• Participants may select the asset allocation for future payroll contributions and the asset allocation for their existing fund balances

• Existing balances and future contributions, with some exceptions, will be mapped into the new menu in February 2017

Rollout:
• Transition guide and required notices

• Information regarding current investments and step-by-step instructions to make changes

• Group meetings, webcasts

• Increased onsite presence including one-on-one meetings with Fidelity and TIAA representatives
TIMELINE

1. Communication package mailed to faculty and staff homes – September 2016

2. On-Grounds presentations – Fall and Winter 2016/17

3. Increased access to vendors – Fall 2016

6. Closing and mapping of legacy assets and funds – February 2017
